

## DirectVent® Pro Flex

Previously DirectVent® Pro Flex lengths, included in the outlined kits below, were marked in “RED” (exhaust) and “GREEN” (air intake) colored tape.

DuraVent is no longer using “GREEN” tape to mark the air intake flex lengths in these kits. The air intake flex lengths will come without colored tape, and exhaust lengths will continue to be marked with “RED” tape.

We apologize for any confusion this has caused.
