AUTOMATED FIRE ON WATER IGNITION

SYSTEM OVERVIEW

PILOT BURNER/SUBMERSIBLE MANIFOLD DETAIL

PILOT BURNER VERTICAL POSITIONING

The pilot burner for the fire-on-water surface system is shown in the photo at the right.

The blue line indicates the desired water level in relation to the pilot burner's wind cap.

The water level can be at the blue line or as low as 1/2" below the blue line.

PLUMBING TRANSITION FOR GAS LINES (ASSUMING 2" PVC SLEEVE INSTALLED)
